

PRIX GALIEN USA

NOVEMBER 7, 2024, NEW YORK CITY

RECOGNIZING INNOVATION THAT IMPROVES THE HUMAN CONDITION

3

PRE-EVENT & ON-SITE RESOURCES FOR JOURNALISTS

Galien Foundation events are conducted fully on the record, and we welcome and invite members of the media to participate as engaged stakeholders via onsite discussion, as well as via social media, and to report on proceedings and outcomes.

We certainly appreciate coverage of our events. but our priority is to help you explore and uncover today's key issues and connect with the people and diverse organizations we bring together that make the world a healthier place.

To help facilitate your engagement with our speakers and stakeholders, we are delighted to and Ceremony on:

- > Arranging interviews with key speakers and stakeholders
- > Reserving private spaces for on-site interviews
- > Sharing our latest programs and speaker lists
- > Providing hi-resolutions imagery (including photos of people, spaces, logos, etc.)

THE GALIEN FOUNDATION FOSTERS, RECOGNIZES AND REWARDS EXCELLENCE IN SCIENTIFIC INNOVATION THAT IMPROVES THE STATE OF HUMAN HEALTH.

OUR MISSION

P. Roy Vagelos, Prix Galien USA Committee Chair (2012-2017); retired Chairman & CEO, Merck & Co., Inc. was the first recipient of the Pro Bono Humanum Award for his historic decision to donate the drug Mectizan to more than 530 million people in 34 countries to treat and prevent river blindness.

The Prix Galien Award recognizes outstanding achievements in improving the global human condition through the development of innovative drugs and other treatments. The Prix Galien was created in 1970 in honor of Galien, the father of medical science and modern pharmacology Worldwide the Prix Galien is regarded as the equivalent of the Nobel Prize in biopharmaceutical research.

The Prix Galien is more than an award: it is a movement with a mandate to foster, recognize and reward excellence in scientific innovation to improve the state of human health. Building on an unrivaled network of top biomedical scientists including Nobel Laureates in medicine, the Prix Galien manages an independent, cross-functional and geographically diverse program of events and sponsorships to brand "the best of the best" in new medicines and diagnostics. Our scope is global, and our commitment to progress in medicine is both measurable and concrete. Our members express this through the establishment of productive relationships to build lasting bridges between the commercial research enterprise and local communities engaged in public policy, science, finance, academic research and the media.

In addition to recognizing advances in promising therapies, the Prix Galien's annual Roy Vagelos Pro Bono Humanum Award for humanitarian achievements brings a unique focus to the intersection between science, business and politics. The outcome we seek is guided by the synthesis principle that underpins the conduct of science itself: successful innovation where financing, physical assets, knowledge and skills are combined from many sources to move new ideas quickly "from the bench to the bedside," on behalf of patients everywhere.

A TRULY GLOBAL PROGRAM PRESENT IN 15 COUNTRIES*

Our program includes a review of contributions from a new generation of innovators representing diverse sectors in health. Our mission is to advance cross-cultural contacts and harmonize regulation, internal business processes, new information technologies and public-private partnerships to remove barriers to the commercialization of good medicines and expand across to these benefits to all who need them.

* Africa, Belgium, Canada, China, France, Germany, Greece, India, Italy, Netherlands, Poland, Russia, Spain, Switzerland, United Kingdom and the United States.

(I-r) Elie Wiesel, Peace Nobel Laureate; Ban Ki-moon, General Secretary, United Nations; Bill Clinton & Philippe Douste-Blazy, 2010 Prix Galien Pro Rono Humanum Award Laureate

BY ALBERT DE JAEGER

he Prix Galien medal was designed by Albert de Jaeger (1908 – 1992), laureate of the Premier Grand Prix de Rome architectural prize. De Jaeger designed medals for prominent figures such as Pope Pius XII (at the Villa Medicis, 1937) and Pope Jean-Paul I, Presidents Dwight D. Eisenhower and John F. Kennedy, distinguished military

leaders including Marshals Leclerc, Koenig, Montgomery, Marshall and Joukov; the Weizmann Institute, as well as numerous artists, literary figures and prominent personalities such as Sacha Guitry, Marcel Proust, Henri de Montherlant, Paul Harris, a number of Nobel Prize laureates, the Empress of Iran SA Farah Diba, Princess Grace of Monaco, and others...

De Jaeger is also the architect of numerous outstanding monuments in France and throughout the world.

2022 was a landmark year celebrating 50 years of progress in recognizing excellence in biopharmaceutical and med tech innovations to improve the human condition. As a special feature, our 50th Golden Jubilee year honored the "global best of the very best" in: A- Pharmaceutical; B- Biotechnology; C- Orphan and Rare diseases; D- Vaccines; and E-Medical technology products. Eligibility were drawn from the 250 products awarded the Prix Galien by our 14 member-country chapters between 1970 and 2019, developed by more than 80 innovative companies, most of whom continue to bring new therapies for today's patients with unmet medical needs.

The Galien Forum and Prix Galien USA Ceremony took place on October 27 in New York City at the Alexandria Center for Life Science and Museum of Natural History, respectively. During the Ceremony, we also announced **the laureates** for the "Awards of the Jubilee" – which will be selected by all past and present Committee members across the globe.

The Golden Jubilee Short list was announced on December 11, 2021 in Dakar in the presence of the President of the Senegalese Republic, H.E. Macky Sall, alongside many African heads of state and ministers of health and/or environment, the WHO Director-General as well as hundreds of scientists and industry and innovation leaders.

Under the sponsorship of the government of Senegal and the WHO Regional Office for Africa, the Prix Galien Africa is our first truly region-wide initiative. It stands as a living tribute to the vision of Foundation co-founder, 1986 Nobel peace laureate Elie Wiesel, who believed in medical innovation not only as an industrial policy asset but as a source of social progress, where private enterprise and public engagement combine to deliver a greater

public good - health equity and access for all. The best locale to pursue our mission is the African continent, whose young population is destined to double to 2.5 billion people by 2050. According to the World Economic Forum, early-stage entrepreneurial activity is nearly 15% higher in Africa than the global average - yet while the continent is today home to 11% of the world's population, it accounts for a mere 1% of total health spending and carries a crippling 25% of the global disease burden. Taken together, these statistics reveal the progress inherent in what a few years will be the world's youngest and potentially most productive population, but whose prospects depend on more investment in health care as the key driver of development.

Our diverse geographic reach. The inauguration of the Prix Galien India in 2024 represents a significant milestone, reflecting the Galien Foundation's mission to bridge the gap between the Global South and Western countries. This landmark event underscores the Foundation's commitment to recognizing and fostering scientific innovation across diverse geographical regions, ultimately contributing to global health advancements. Through initiatives like this, the Foundation continues to build upon its legacy of promoting excellence in pharmaceutical research and development worldwide. Our diverse geographic reach is evident with the International Prix Galien Awards. which launched in 1990, and is conducted every two years to highlight the "best of the best" in research that brings dividends to patients across geographies with differing health needs. This year to be held in Rome on June 20, 2024. This desire to make biopharmaceutical and med tech innovation a global endeavor, bringing progress to patients in all corners of the world, will now be a key priority for the Prix Galien community going forward. We invite all communities with a commitment to the conduct and promotion of life sciences innovation to contribute to this important work.

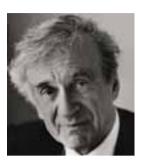

"Knowledge without conscience is but the ruin of the soul.

- Rabelais - Pantagruel, 1532

"The mission of The Galien Foundation is to be the premiere platform where humanitarians and innovators at the forefront of biomedical research gather annually to honor highest achievement."

Bruno Cohen Galien Foundation Chairman

Prix Galien USA FOUNDING COMMITTEE 2007-2011

"Thanks to their gifts to society and their determination to alleviate and cure its woes, the scientists deserve to be ranked among the true friends of the human race."

Pr Elie Wiesel

A RECORD OF I FADERSHIP IN BRINGING THE BEST OF **BIOMEDICAL DISCOVERY** TO THE ATTENTION OF THE WORLD

"The Prix Galien is a welcome initiative to stimulate creative research and promote excellence.'

Barack Obama American President - 2008

"The Prix Galien since 1970 is dedicated to promoting the research and development of the medicine and medicine industries."

Macky Sall Senegalese President - 2018

I welcome you to the annual Prix Galien awards for innovative excellence in biomedical products and health technologies. The awards are among the highest honors in science and commerce."

THE GALIEN FOUNDATION

Jimmy Carter American President - 2017

I am particularly grateful to receive this award and I will treasure it"

Bill Clinton American President - 2010

"The Prix Galien honors outstanding achievement in two areas that are critical to human health: science and innovation."

Tedros Adhanom Ghebreyesus Director-General, World Health Organization - 2018

"It is a pleasure to congratulate all those who promote the Prix Galien and pharmaceutical research: they play a vital role in the fight against disease throughout the world."

John Major British Prime Minister - 1996

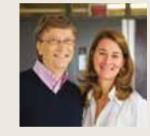

"The Prix Galien is the right event, on the right issue at the right time. I thank the Galien Foundation for bringing us together and for recognizing that a healthier world is a safer world and a more just world."

BAN Ki-moon UN Secretary-General - 2010

I know the importance of the Prix Galien which rewards every year therapeutic innovations and research works among the most creative."

Emmanuel Macron French President - 2018

'The Prix Galien Awards are a true celebration of the years of hard work that are required to produce lifechanging interventions."

Bill & Melinda Gates - 2018

The Prix Galien is a prestigious award, a magnificent occasion to pay recognition to our researchers and to encourage our industry."

Jean Chretien Canadian Prime Minister -1994

"I'd also like to congratulate all the candidates for the 5th Annual Prix Galien Awards Competition, which honors those in the pharmaceutical industry who have developed the technical, scientific and clinical research skills necessary to develop innovative medicines and devices. Your work is invaluable."

"Prix Galien recognizes men and women from the pharmaceutical and biomedical industries whose contributions of science have improved and saved countless lives.

Michael Bloomberg Mayor of the City of New York - 2010

"We recognize the importance of the Prix Galien in promoting drug research, and we salute the excellent work of the Jury.'

Philippe Douste-Blazy French Minister of Foreign Affairs - 2006

"When Olympic rhymes with Galenic: there is a gold medal that can be won for an extraordinary achievement: this is the Galien Award, the Oscar of pharmaceutical research."

Walter Sutter Swiss State Advisor, Director of the Public Economy - 2004

"The Prix Galien USA recognizes the important research necessary to develop innovative medicines and devices that have a life-saving impact on individuals and families across the globe."

American Secretary of Health and Human Services - 2011

Margaret A. Hamburg, M.D. Commissioner of Food and Drugs US Food and Drug Administration - 2011

"The Galien Foundation, created to honor and catalyze excellence in scientific innovation, recognizes outstanding achievement with the prestigious Prix Galien Award."

Bill De Blasio Mayor of the City of New York - 2015

"I applaud Prix Galien for recognizing the pioneering spirit of America innovation and research."

John McCain

American Senator - 2008

Kathleen Sebelius

What were the greatest achievements with positive impact on human health over 50 years from among Prix Galien Winning Innovations?

"It's one thing to make a movie... it's another to save people's lives. Very very proud to be here and witness this."

Sharone Stone

GALIEN'S BEST-OF-THE-BEST FROM THE HALF CENTURY 1970-2020

	GOLD MEDAL	SILVER MEDAL	BRONZE MEDAL
BEST BIOTECHNOLOGY PRODUCT	ROCHE / GENENTECH Herceptin (trastuzumab)	MERCK & CO., INC KEYTRUDA® (pembrolizumab)	ABBVIE HUMIRA® (adalimumab)
BEST PHARMACEUTICAL PRODUCT	NOVARTIS PHARMACEUTICALS CORPORATION GLEEVEC® (imatinib mesylate)	MERCK & CO., INC ZOCOR® (simvastatin)	GLAXOSMITHKLINE AUGMENTIN (amoxicillin/clavulanate potassium)
BEST MEDICAL TECHNOLOGY	ABBOTT FreeStyle® Libre 14 Day Flash Glucose Monitoring System	EDWARDS LIFESCIENCES Edwards SAPIEN 3 Ultra TM transcatheter heart valve system	ROCHE DIAGNOSTICS cobas® HPV test
BEST ORPHAN/ RARE DISEASE PRODUCT	NOVARTIS PHARMACEUTICALS CORPORATION Kymriah®	BIOGEN/IONIS SPINRAZA® (nusinersen)	VERTEX PHARMACEUTICALS KALYDECO® (ivacaftor)
BEST VACCINE	MERCK & CO., INC GARDASIL® & GARDASIL® 9	PFIZER PREVNAR 13	SANOFI PASTEUR MSD Vaxelis 6-in-1 Infant Vaccine

"What an amazing recognition for our global team, who have spent decades developing and distributing this vaccine. Congratulations.

Albert Bourla Chairman and CEO, Pfizer

"Merck's mission is to translate science into medically important products that positively impact humanity, so it is natural for us to support the Prix Galien, since it supports exactly that."

Kenneth C. Frazier Chaiman, CEO and President, Merck

"The Galien Foundation brings together the top scientists in the world. You have Nobel Laureates across the spectrum of scientific disciplines meeting and talking with members of the pharmaceutical industry to see what's going on at the cutting edge, because ultimately that's going to benefit patients."

William Hait, MD, PhD Global Head, Research & Development Janssen, Pharmaceutical Companies of Johnson & Johnson

"The launch of Prix Galien India is a meaningful tribute to India's contributions to science and medicine, and to the ways India's talent and ingenuity strengthen our shared work of forging a healthier future for all."

Vas Narasimhan, MD CEO, Novartis

Our annual gala awards dinner is a creative recognition of the productive and positive power of partnerships that drive progress in medical science. It is peer exchange with a public purpose - with a diverse range of opportunities for contact with a range of interests, from professional and scientific groups, academia and governments to profit organizations and the media.

PRO BONO HUMANUM **LAUREATES SINCE 2007**

Presented at the Ceremony, the Pro Bono Humanum Award recognizes exemplary and innovative efforts in improving the human condition. This special award was presented by the late and beloved Elie Wiesel, in presence of the Prix Galien USA Committee. The Pro Bono Humanum Award was renamed the Roy Vagelos Pro Bono Humanum Award in 2017 in recognition of his decades of leadership in improving

NOVEMBER 7, 2024 - 7:30 AM ALEXANDRIA CENTER FOR LIFE SCIENCE NFW YORK CITY

The Galien Forum, held every autumn at New York's Alexandria Center for Life Sciences since 2010, offers a full day of dynamic presentations and spirited discussions with top scientists and industry researchers who offer perspectives on the most significant challenges in the global burden of disease and highlights the latest research and clinical pathways toward diagnosis, treatment, and cure.

Our 900 attendees represent the top executive and thought leadership from academic research, industry, government, the regulatory community, patient organizations, international organizations, and the media. Time and again, Forum participants praise the caliber of the speakers and their fellow attendees, the quality of the panel discussions and presentations, and the recognition of industry's critical role in creating life-saving innovations.

These events represent peer-to-peer exchange with a public purpose, featuring unique opportunities to connect with a diverse range of people, organizations and interests from professional and scientific groups, academia, governmental organizations and patient associations. non-profit organizations and the media.
